

Odontograma de desgaste

Diagram illustrating the Universal and Palmer notation systems for dental wear recording. The diagram shows two dental arches with numbered teeth and corresponding grid boxes for recording data.

The top arch is labeled "Universal Palmer" and the bottom arch is labeled "nome do paciente".

The grid boxes are numbered 1-16 for the top arch and 17-32 for the bottom arch.

An example of a grid box is provided, showing the following structure:

etapa #	data	diastema	reduzido face(s)	quantidade de desgaste realizada
9	11/10/20	3	3	3

The grid boxes are arranged in a grid pattern around the dental arches, with arrows indicating the corresponding tooth for each box. The grid boxes are numbered 1-16 for the top arch and 17-32 for the bottom arch.
